2026 2nd Quarter Review

A MESSAGE FROM PAUL BRAMBLE, PRESIDENT OF OPERATIONS

At the annual Drivers Meeting in February, I made the following remarks:

In the Brambull we sent out just before the New Year, we shared that the company had a great end to 2025, outperforming 2024 by more than 10%! That was a terrific outcome, and I would like to thank everyone in this room for helping the company succeed. It's not an easy feat to perform as well as we did last year, so please give yourselves a much-deserved round of applause for a tremendous job.

What we did not share in the Brambull is that we added enough work that we finished 2025 with a backlog 26% higher than what we started with in 2025! And in the time between January 1 of 2026 and now, we have steadily increased that backlog. We now have more work under contract than we've had in 10 years.

Given where we were in February, with our backlog looking great, as high as it's been in a decade, I made the following challenge to the group: *Does everyone in this room believe they can deliver a more safe, successful, and profitable year than 2025?* The room responded loudly, "YES!".

I am proud to report that the drivers are excellent spokesmen for the entire company. We are halfway through 2026, and our pace versus 2025 is blistering. Our Construction billings are up over 50% from this time last year, and our Plant and Pit billings are up 40%. All indications are that a more successful and profitable year looks very achievable.

The work we've done that has led to this great news is impressive. At Ocean City Airport, we committed to beating the airport's schedule, delivering new pavement on the relocated taxiway by the end of June. At Tidal Health in Salisbury, our pipe and excavation crews safely installed deep utilities and conduit amid a spaghetti dish of existing underground obstructions; at Salisbury University Blackwell Hall, we are well on our way to installing a landscape architect's dream project, including decorative brick, art installations, decorative walls, and a host of other pretty things; at Easton Hospital, we just finished paving on Rte 50 and will open the new entrance to the roundabout and the Talbot County Community Center within the month; at Ponds of Willow Grove, after years of dealing with regulatory

CONTINUED →

delays, we finally finished the majority of the project; at Radcliffe Meadows, we completed major earthwork and got base paving on the first section, meeting the owner's schedule; at Bakers Landfill, we have continued cell construction; we started the Washington College Pickleball courts and continued work on the indoor tennis facility; we started work at our two Virginia projects at Malfa and Accomack School; paving crews were busy in support of most of the jobs already mentioned, as well as many paving-only private contracts; they also completed work for SHA on Route 20 in Chestertown and Routes 298 and 290 in Kent County; and at Easton Airport, we did a lot of work in support of our electrical subcontractor, as well as some paving, grading, etc., culminating in successfully completing work during a short 4-day runway closure.

Unfortunately, one driver's voice is no longer with us. Losing Frank "Gummi Bear" Warrington was a terrible blow. Gummi was a good friend to all and a great driver for the company. His death is a horrible reminder that we work in a dangerous industry. Gummi was the victim of another driver's inattention; we are a very safe company, but we can only do so much when it comes to the abilities of other drivers. Please, as always, be vigilant for yourself and everyone on your crew. Rest in Peace, Gummi.

America at 250: Remembering David A. Bramble's Legacy of Service, Trucks, and Building the Future

A MESSAGE FROM MEGAN OWINGS, PRESIDENT OF
ADMINISTRATION & GENERAL COUNSEL

Originally published July 3, 2023. Updated July 8, 2026.

On July 4, 1776, the Declaration of Independence was ratified, and the United States of America was established. Founding Father John Adams wrote to his wife that the monumental event. *"...will be the most memorable epoch in the history of America. I am apt to believe that it will be celebrated by succeeding generations as a great anniversary festival...with pomp and parade, with shows, games, sports, guns, bells, bonfires, and illuminations, from one end of this continent to the other, from this time forward forever more."*

This year, Americans certainly kept up with the tradition as our nation celebrated the 250th anniversary of the Declaration of Independence. For two and a half centuries, Americans have built, served, sacrificed, and persevered in pursuit of the ideals set forth in 1776. As we mark this historic milestone, we are reminded that our freedoms have been preserved through the efforts of generations of citizens, including the veterans who served our country and helped build the communities we call home.

At David A. Bramble, Inc. we have several Veteran employees to celebrate:

DAVID C. BRAMBLE
ROBERT H. BRAMBLE, JR. "Bobby"
KEITH DILL
SHAWN DOBSON
DANIEL DORSEY, SR. "Dee"
STEVEN FRONHEISER
RICHARD GORDON

RICHARD KENNETH HARRIS "Kenny"
JEREMY OLIVER
GEORGE E. MCLAUGHLIN "Little Mac"
KARL MEYERS
ERIC MINNER
RICHARD BRENT MURPHY "Rick"
ANDREW SEEHAFFER
ROY SUGGS
JAMES FRANKLIN WILLIAMS, IV "Jimmy"

As we celebrate America's 250th birthday, I find myself thinking about our company founder— Paul, and my grandfather—David A. Bramble. Born in Fairlee in 1918, he attended Kent County public schools and graduated from high school in 1934 at just fifteen years old. He began his working life buying scrap from local farmers and hauling it to scrap yards in Wilmington and other cities. Before long, he purchased a truck of his own and began hauling freight, starting what would become a lifelong love of trucks, equipment, and the transportation industry.

At age 23, he enlisted in the Army Air Forces Flying Cadet Program in 1941. After earning his wings and marrying Margaret "Marnee" Kitner at Maxwell Air Force Base in Alabama, he was assigned to the 323rd Squadron, 91st Bomb Group, 8th Air Force, at Basingbourn, England. Flying B-17 Flying Fortresses, he completed 25 combat missions over Europe, including the first daylight raid on Berlin on March 6, 1944.

CONTINUED →

His aircraft, the *Village Flirt*, carried him through some of the war's most dangerous operations. For his service, he was awarded the Distinguished Flying Cross and the Air Medal with three Oak Leaf Clusters. Returning home in late 1944, he continued to serve his country by testing aircraft and weapons systems before eventually returning to the Eastern Shore of Maryland. In 1947, he founded a small road-building company in Fairlee that would later become David A. Bramble, Inc. The company, incorporated in 1959 and eventually headquartered in Chestertown, grew steadily.

This 4th of July, I was reminded of the joy Mr. Bramble took in managing the Chestertown Shop. While many knew him as a successful businessman, those who worked with him remember that his favorite place was often not the office—it was the shop. He loved trucks, engines, and equipment. Long after the company had grown beyond a one-truck operation, he could still be found in the shop, sleeves rolled up, discussing repairs, inspecting equipment, or working on one of his beloved Mack trucks. The trucks were a source of pride, craftsmanship, and opportunity—the same opportunity that had allowed a young man from Fairlee to build a business and provide for generations to come.

One of his favorite projects was assembling Mack Glider Kits—trucks sold with a new cab, frame, and chassis components, but without an engine or drivetrain. The remaining components were then sourced and installed (often from wrecks), creating a custom-built truck. Mr. Bramble thrived on the challenge and satisfaction of bringing these trucks to life. Among the last trucks he worked on before his passing in 2004 was one affectionately known around here as "B-1." Over the years, B-1 has remained a special piece of family and company history. In recognition of Mr. Bramble's military service and lifelong love of trucks and equipment, B-1 was recently restored and repainted as a tribute to his legacy. The truck now features artwork honoring the B-17 Flying Fortress the *Village Flirt*, the aircraft he flew during his combat tour with the 91st Bomb Group.

B-1 is still working under the care of the third and fourth generations of David A. Bramble's family as part of the Owings & Sons & Daughters farm fleet. It serves as a reminder not only of his wartime service and entrepreneurial spirit, but also of the pride he took in trucks, machinery, and the people who make them work.

Industry News & Updates

2026 TRIP Report

Maryland's transportation system is aging, congested, and underfunded, imposing significant economic, safety, and quality-of-life costs on residents and businesses. Without increased and sustained investment, conditions will continue to deteriorate, undermining safety, economic competitiveness, and freight mobility statewide. The TRIP report makes a strong, data-driven case that continued under investment will worsen safety outcomes, increase long-term costs, and weaken Maryland's economy. **As always, we encourage you to tell your County, State, and Federal representatives why investing in roads is important to you!**

[READ TRIP REPORT →](#)

Road Conditions & Cost to Motorists

- 51% of Maryland's roads are in poor or mediocre condition
- Deteriorated roads cost Maryland drivers \$3.7 billion annually in extra vehicle operating costs about \$856 per driver per year
- Deferred maintenance is costly: every \$1 not spent now leads to \$4-\$5 in future repair costs

Bridge Conditions

- 4% of bridges (240 of ~5,500) are rated poor/structurally deficient
- 64% are in fair condition, signaling many are approaching the need for major rehabilitation
- 43% of bridges were built in 1969 or earlier, well past their original design life

Congestion & Mobility

- Congestion costs Maryland drivers \$6.1 billion annually in lost time and wasted fuel
- Vehicle miles traveled rebounded after COVID and are now near pre-pandemic levels, continuing long-term growth trends
- Freight movement is increasing rapidly, putting added strain on already stressed highways

Safety Impacts

- From 2019–2024, Maryland averaged ~573 traffic fatalities per year, with fatalities up 31% over the past decade
- 26% of fatalities involved pedestrians or bicyclists
- Roadway features are estimated to be a contributing factor in about 1/3 of fatal crashes, accounting for \$2.7 billion in economic costs in 2024 alone

Funding Shortfall

- MDOT's 6-year capital plan shows a \$1.3 billion funding gap between revenues and planned needs
- While the Infrastructure Investment & Jobs Act provides \$4.1 billion over 5 years, it is insufficient to offset long-term revenue erosion from increased fuel efficiency and EV adoption and inflation in construction costs (up 47% since early 2022)

Economic Importance

- Transportation infrastructure supports ~77,000 jobs in Maryland, generating \$3.5 billion in wages annually
- Freight moved 308 million tons worth \$387 billion in 2024, with truck freight projected to grow 55% by weight and 101% by value by 2050
- Every \$1 invested in highways and bridges returns \$3.40 in economic output

Safety

BY THE SAFETY TEAM: KEITH DILL, TEDDY OBRECHT & MCKENZIE HELTON

In early May, the Safety Team headed up to Philadelphia to attend our insurance captive's bi-annual, Safety Leadership Workshop. The focus of this workshop was on mental health, which coincided with the month of May being Mental Health Awareness Month. We watched presentations, listened to speakers, and discussed amongst our peers from other companies, various topics on mental health that included:

DAB Safety Team: Teddy Obrecht, Keith Dill, Megan Owings, Millie Clough & McKenzie Helton

- The importance of mental health.
- Understanding and establishing a culture of caring.
- Promoting a mentally healthy workplace / culture that promotes seeking help.
- Ways to break the stigma surrounding mental health and suicide.
- The many resources available for reaching out for help.

We took away a lot of valuable information from this event and shared with our David A. Bramble, Inc. family, and have passed this information along to those in the field. We have compiled all of the valuable resources that we learned about from the workshop, into one easy-to-read document! All of these resources are available 24/7, free to access, and are always anonymous. Please don't hesitate to reach out if you feel the need to; help is available and waiting!

MTBMA's 13th Annual Safety Awards Banquet

On May 8, members of our Safety Team attended the MTBMA 13th Annual Safety Awards Banquet in Baltimore, Maryland.

We are proud to announce that Matt Jones (Salisbury Region office) and Greg Dill (Chestertown) were both recipients of the Ed Tracey Distinguished Supervisor Award, which recognizes outstanding leadership and commitment to workplace safety. Matt and Greg exemplify DAB's dedication to safety and excellence, setting a strong example for their coworkers and the communities we serve.

David A. Bramble, Inc. was also honored to support the event as a Silver Sponsor. Congratulations to all award recipients, and thank you to MTBMA for its continued leadership in promoting safety throughout our industry!

2026 Work Zone Awareness Photo Contest

This year's Work Zone Awareness Week Photo Contest brought out some great creativity and strong safety messaging from across the company. We appreciate the effort from everyone who participated and helped highlight the importance of keeping our job sites safe.

After much discussion, we are excited to announce that this year's contest resulted in a three-way tie for first place between:

- Trevor Lamberston & Randy Harris' Crew
- Pedro Roblero's Crew
- Austin Brittingham and Robert Holland's Crew

Each team demonstrated outstanding creativity, teamwork, and commitment to promoting work zone safety. In recognition of their efforts, all three winning crews will receive a free lunch on us—well deserved!

We would also like to give honorable mentions to the Chestertown and Eden offices for their submissions. Their efforts in organizing and staging thoughtful, safety-focused displays did not go unnoticed and contributed to the overall success of this year's contest.

Thank you again to everyone who participated and helped make this contest a success. We look forward to seeing even more great ideas next year!

BY ANTHONY DIMAGGIO, JENN FRANK & VICKY REDMAN

GENERAL CONTRACTORS
DAVID A.
BRAMBLE

SETTING THE
STANDARD

Hard to believe we are halfway through the year already. We have been keeping busy and made some additions to the fleet and the drivers. We would like to introduce our new drivers.

- Richie Harris is driving lowboy truck 1770 out of Chestertown
- Gerald Daniels has returned and is now in truck 2310 out of Massey
- Raymond Tilghman is in truck 1240 out of Eden
- Lauren Kennedy is in truck 1480 out of Cambridge
- Ricky Dunkerly is in truck 1360 out of Chestertown
- Robert Emory is in truck 1380 out of Chestertown
- George Jackson is in truck 2330 out of Cambridge

We welcome the new drivers while still mourning the loss of Frank 'Gummi' Warrington. He was a great employee and all-around great human being. He is very missed.

With that said, we know several of you are not too fond of the new cameras that talk to you, or any camera or GPS for that matter. However, please understand that they are there for your protection not for us to watch your every move all day every day. We have several units that need to have the new GPS installed. Jenn will be starting to get all of those scheduled for installation in the next couple of weeks.

Please make sure you keep Jenn and Vicky updated on any changes in address, email or phone number you may have. Also be sure to get us a copy of any license renewals or updates for the records.

SOME OF OUR OPEN POSITIONS

Utility Equipment Operator

The Heavy Equipment Operator will be responsible for having the skill and knowledge of heavy equipment operation techniques in order to perform the construction of highway projects.

Insurance Notice for GLP-1 Medications

Effective January 1, 2026, members will no longer have access to fill GLP-1 medications at Walgreens, Costco, or ESI's mail order pharmacy. Examples of medications in this drug class are Ozempic, Mounjaro, Trulicity, etc. Members can continue to fill GLP-1 medications at other preferred in-network pharmacies. To find an in-network or preferred pharmacy, members can log in at express-scripts.com/pharmacies or call the member services phone number on their ID card (1-800-334-8134).

401(K) News: Did You Know...?

There's a new type of savings account called a "Trump Account" designed to help families start building money for their kids early. These accounts are available for children under 18 and allow contributions of up to \$5,000 per year, with some children even eligible for a government starting contribution. The idea is simple — start early, invest steadily, and let the money grow over time until your child reaches adulthood.

If you'd like to learn how this new savings option could fit into your family's financial plan, the team at Greenspring Advisors is here to help. As part of your benefits, you have access to CERTIFIED FINANCIAL PLANNER™ professionals at no additional cost.

DAB Out in the Community

Supporting Public Safety in OC

Renovations begin at the Ocean City Fire Department's Montego Bay Station 4, helping ensure emergency personnel have safe, reliable access to serve residents and visitors throughout the northern portion of Ocean City. Recent improvements include reconstruction of the station's front access ramp, part of an ongoing effort to enhance the facility while maintaining uninterrupted emergency operations. We are proud to support projects that strengthen the infrastructure our communities depend on every day.

Shoutout to Andrew Bradley, [NexGen Flight Solutions](#), for sharing this picture of our beautifully rehabbed Runway 15/33, which reopened this week. [#EastonAirport](#) [#ESN](#)

Traffic Circle Thank You

Warren B. recently stopped by our Chestertown office to share his appreciation of the work completed at the Royal Farms traffic circle in Chestertown. As a resident of nearby Coventry Farms who uses the circle frequently, he spoke very highly of the project and said our team did a great job!

Just For Fun!

Enjoying the Day!

McKenzie Helton grabbed a great photo of our concrete crew in action at SU Blackwell Hall!

Decked out for the 250th!

Our Salisbury office is ready to celebrate America's 250th!

The Harris Dynasty: 110 Years of Service

Talk about keeping it in the family! Two generations of Harris'! At the wheel is Kenny Harris who has worked at DAB since 1971 and will be celebrating 55 years at DAB in July! His sons, Keith (Paving Division Project Manager) and Bryan (Area Paving Superintendent)

BEST VIEW FROM THE CREW

The Prize:

The winning photo will be featured in our newsletter—and the photographer will receive this limited edition David A. Bramble, Inc. water bottle along with bragging rights!

We know great work happens on our jobsites every day—and we want to capture more of it in our marketing materials! We'll feature the winning photo (or photos!) in each quarterly newsletter.

We're looking for clear images that show:

- ✓ A safe worksite in action
- ✓ Team members on the job
- ✓ Equipment in motion
- ✓ Completed work you're proud of

How to Enter:

Snap a photo on the job (bonus points for posed team shots, such as reviewing a toolbox talk, or action shots with equipment), and email it to [Millie Clough](#) with your name, what jobsite or location where the photo was taken, and a description of the work being performed.

Q2 WINNER

Congratulations to Jesse Butler for "Best View from the Crew!" for Q2!

What makes this image stand out is its perspective—it captures both the magnitude of the excavation and the people who make the work happen every day. From the equipment operating at the surface to the crew working below grade, the photo provides a unique view of the craftsmanship, planning, and teamwork that drive successful project delivery.

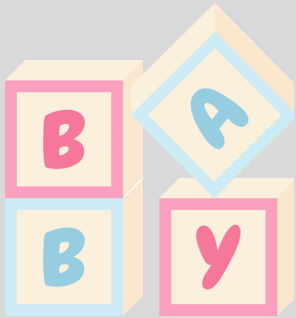

Will your photo be the next winner?

Announcements

Congratulations, Nathan!

Congratulations to Nathan James Edgar of Milton, Delaware, who graduated with honors from Cape Henlopen High School in Lewes, Delaware. Nathan is the grandson of Hugh and Joanne Smith of Denton, Maryland. We wish him all the best as he begins this exciting new chapter and look forward to seeing what the future holds for him.

Welcome, Declan!

Congratulations to Alyson Getty from our Accounting Department on the arrival of her second son, Declan Neil, born on May 21. We are excited for Alyson and her family and wish them all the best as they welcome their newest addition!

Congratulations, Evan!

Congratulations to Evan Bussells on his recent marriage to Keeley on June 6. We wish Evan and Keeley a lifetime of happiness as they begin this exciting new chapter together!

Best Wishes, Hugh!

After ten years of dedicated service, Hugh Smith of the Chestertown Shop will retire from David A. Bramble, Inc. on July 31st 2026.

Hugh shared the following message with his fellow employees: "It has been a pleasure to work with all of you, and I wish David A. Bramble, Inc. great success in the future."

We thank Hugh for his contributions to DAB over the past decade and wish him a happy, healthy, and well-deserved retirement!
